Have You Seen the New Dress Goods Yet?

At this season of the year no one is especially anxious to know about bargain fabrics, but keenly interested to know where the largest, most attractive and newest display of Spring dress and smitting fabrics may be found. Our showing is a striking example of "what is what," and we doubt when style, quality and exclusiveness is considered that its counterpart is to be found in Hamilton. Now is the time to get pool choice. We will reserve any length and deliver when desired. Come in to-morrow and find out the wisdom of choosing early. Our Ladies Tajloring and Dressmaking Sections are taking Spring orders.

ANNEXATION AGAIN

New Petition Will be Drawn Up At Once

Personalities, incriminations, politics, charges of wire pulling by Conservatives and various other exciting attributes marked a lively sossion of the East Hamilton Progressives' Society at their weekly meeting held last night in Phoenix Hall.

The meeting opened with discussion on the east end annexation question, but since the excitement of the evening cut the discussion in two, the details of this discussion will be given

Secretary G. The Statement of the Fact \$20,000 Challenge

The best, and easily the most efficient and automobile engine is made in Canada—not in Es the United States—but right here, in Canada—ought to be a source of national pride and recognitions.

This statement is a broad one, but it is the unchallenged truth.

nns statement is a proad one; but it is the unchallenged truth.

If your motor is not a Russell-Knight, no matter who made it, nor where it came from, nor how much you paid for it (with duty added, perhaps), nor who may have told you otherwise—tis not the best, nor the most enduring, nor the best value for your money. The best value today is made in Ganada.

This has been proved—and to the hilt.
The engine test recently conducted by Professor W. H. Price of the Faculty of Applied Science of the University of Toronto has abundantly shown it. The results have been made known. They are authentic and certified. They are stablished many world-records for engine efficiency, economy, endurance, and power production, unapproachable to other type motors. There is no poppet valve engine manufactured which has ever equaled, or can equal, the performance of the Russell-Knight Motor. The convincing root is backed by a

MARKET VIEWS.

Commercial—The public is doing little any of the stock markets here or goad, and foreigners are waiting for rther developments in Mexico.

Herald—The market remains dull,

ter character than the selling active stocks.

The appearance of a few sella in the hands of spot houses' end to confirm the impression spot markets.

Fixed back and fill moving without a range and the list as a cown no clearly defined ten-

dency.—The long-range bears on New Harets have not yet covered their con-tracts, and to judge by the rate quoted for the stock in the loan crowd, the thort interest is as large as it ever was. Grain—There is general weakness in wheat owing to good weather and fav-orable crop prospects.
